

SKIP THE LINE AT THE
REDEMPTION CENTRE.

**THINK INSIDE THE BOX.
GET YOUR CASH FAST.**

The new **re360** green boxes will be piloted in our redemption centre starting this spring, in order to help speed up the recycling process for our customers. This trial is part of an exciting recycling research pilot project led by Encorp Atlantic Inc. that aims to improve recycling rates in the province by making recycling more convenient for New Brunswickers.

HOW DO THE **re360** BOXES WORK?

Each **re360** recycling box is designed to hold 60 containers and entitles you to a \$3 cash payout. Bring your **re360** box filled with 60 deposit-bearing containers to participating redemption centres. You will be given priority service and leave quickly with your cash in hand. We will hand you a cash refund on the spot and you will be able to return home with your empty boxes to refill them.

WHAT CAN I PUT IN MY **re360** BOX?

You can put any empty New Brunswick deposit-bearing beverage containers in your **re360** box. Make sure to remove the caps and to empty and clean out your containers first! ***You can return your recyclable beer bottles in their cases, separate from your re360 boxes.***

WANT TO GET YOUR OWN **re360** BOX?

You can get your boxes in exchange of a \$5 deposit and by signing up for the program. You may return your **re360** boxes at any time and get your deposit back. Limit of 2 boxes per household.
