## CLARIFICATION REGARDING STEEL CANS (ALCOHOL)

### STEEL CANS

8

Example: Mini keg steel container

There is currently no sort in Encorp's Sort List dedicated to alcohol beverage steel cans.

Since the volume of alcohol beverage steel cans redemption centres (RC) receive is very low, these cans should be placed with non-alcohol beverage steel cans in Sort 8.

For each large (> 500ml) alcohol beverage steel can with a 20¢ deposit placed in a sort 8 bulk bag, RCs can add two 5¢ refund units to the total unit count on the bulk bag's yellow shipping tag in order to be reimbursed the 10¢ refund.
