

# HOW TO PREPARE FOR YOUR REDEMPTION CENTRE VISIT

- 1 Ensure the beverage containers are all deposit-bearing. While most beverage containers can be returned to a redemption centre, there are some that can't. You can check our website to find out which beverage containers are deposit-bearing:  
**<https://encorpatl.ca/recycle/which-containers-are-accepted/>**
- 2 For a quicker visit to the redemption centre, you can pre-sort and count your containers. If you're part of the Recycling Heroes in School Program, you don't need to worry about this as you will be able to drop off the containers and receive your refund later.
- 3 Make sure all the containers are empty of any liquids, trash, or debris, and that there are no broken bottles or crushed cans.

- 4 If plastic bottles have plastic caps on them, make sure the bottles are crushed to remove the air from them.
