

HOW TO USE THE OPERATIONS & LOGISTICS BINDER

This binder is meant to help redemption centre (RC) operators and staff by putting in one place all the guides, instructions, and notices provided by Encorp to RCs related to operations and logistics.

In this binder, you will find all the most up-to-date information regarding sorting, bulking, and shipping beverage containers for Encorp, as well as some extra information and checklists meant to help RC operators and staff complete their work.

Whenever new or updated information needs to be provided to RCs for inclusion in this binder, you will be notified by email and given a link to download the required document to print and insert.

All of the binder's contents are available for download anytime via Encorp's website.
